Zero-Wall Recliner

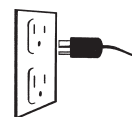

Close To The Wall Mechanism Using Heavy Duty Linkage For Smooth Operation

Styling & Design

- Opens with big handle, inside handle, or cable release
- Optional swivel and ring base allows you to have the ultimate chair
- Universal frame will interchange with rocker and glider recliner
- Elevated mid ottoman or pad-over chaise with one SKU provides added leg support and compliance with Consumer Products Safety Commission standards
- Optional sprung metal seat box improves product integrity.

Performance & Engineering

- Improved ease of operation, finger tip release
- Elevated footrest height, for better circulation, and comfort
- Profile linkage front end minimizes pinch points
- Soft Stop quiet operation
- Engineered bushings and washer in all pivot locations for quiet, smooth operation and long life
- Direct drive activation synchronizes right and left sides for easy opening and closing
- Unitized system for greater strength, durability and rigidity
- Optional steel seat foundation increases stability of frame and mechanism
- Wide stance construction provides greater side-to-side stability
- Engineered ottoman for firm, yet ergonomically correct action
- Steel base and cross rails provide rigid structural integrity
- Optional back assist springs available to balance full recline movement
- Articulating mid-ottoman offers more leg support
- Endures a 25,000-cycle lift test at 200 lb. test weight
